Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: **(Simplified)**

User Stories:

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release

Employee	Laptop Request	USN-1	As an employee, I can access the ServiceNow portal to request a laptop.	I can access the laptop request form from the Service Catalog.	High	Sprint-1
	Laptop Request	USN-2	As an employee, I can select the required laptop type.	I can select an available laptop type from the provided options.	High	Sprint-1
	Laptop Request	USN-3	As an employee, I can enter my laptop request details.	I can provide required details such as laptop type, justification and accessories.	High	Sprint-1
	Laptop Request	USN-4	As an employee, I can submit the laptop request.	The request is successfully submitted and a request number is generated.	High	Sprint-1

	Request Tracking	USN-5	As an employee, I can view the status of my laptop request.	I can see whether the request is submitted, approved, rejected, or fulfilled.	High	Sprint-1
	Notifications	USN-6	As an employee, I can receive notifications about my request.	I receive notifications when the request status changes.	Medium	Sprint-2
	Request History	USN-7	As an employee, I can view my previous laptop requests.	I can access my submitted request history and details.	Medium	Sprint-2
Manager / Approver	Request Approval	USN-8	As a manager, I can view laptop requests submitted by my employees.	I can access pending requests assigned to me for approval.	High	Sprint-1

	Request Approval	USN-9	As a manager, I can approve a laptop request.	The request status changes to approved and moves to the IT/fulfillment stage.	High	Sprint-1
	Request Approval	USN-10	As a manager, I can reject a laptop request with a reason.	The request is rejected and the employee is notified with the rejection reason.	High	Sprint-1
IT / Support Team	Request Processing	USN-11	As an IT team member, I can view approved laptop requests.	I can see all approved requests assigned for IT processing.	High	Sprint-1
	Inventory Management	USN-12	As an IT team member, I can check laptop availability.	I can verify whether the requested laptop is available in inventory.	High	Sprint-1

	Laptop Assignment	USN-13	As an IT team member, I can assign a laptop to an employee.	The assigned laptop and asset details are recorded against the request.	High	Sprint-2
	Configuration	USN-14	As an IT team member, I can update the laptop configuration status.	The request reflects that the laptop has been configured and is ready.	Medium	Sprint-2
	Fulfillment	USN-15	As an IT team member, I can update the request when the laptop is shipped or ready for pickup.	The employee can see the fulfillment status in ServiceNow.	High	Sprint-2
Administrator	Request Management	USN-16	As an administrator, I can view and manage all laptop requests.	I can search, view and update requests based on my permissions.	High	Sprint-1

Form Management	USN-17	As an administrator, I can manage the laptop request form fields.	Required fields and available options can be maintained.	Medium	Sprint-2
Workflow Management	USN-18	As an administrator, I can configure the laptop request approval workflow.	Requests follow the defined approval and fulfillment process.	High	Sprint-2
Notifications	USN-19	As an administrator, I can configure request notifications.	Notifications are triggered for important request status changes.	Medium	Sprint-2
Reporting	USN-20	As an administrator, I can view reports on laptop requests.	I can view request volume, status, approval and fulfillment information.	Medium	Sprint-3

Employee / IT Team	Request Closure	USN-21	As a user, I can confirm that the laptop has been received.	The employee can confirm receipt and the request can proceed to closure.	Medium	Sprint-3
	Request Closure	USN-22	As an IT team member, I can close a completed laptop request.	The request is marked as closed after successful fulfillment.	High	Sprint-3
